Gunjan Kotadiya

Full Stack developer

📞 +91-9662780168 | 🔗 LinkedIn | ✉ gunjankotadiya5455@gmail.com

SKILLS

• **Programming Languages:** JavaScript, Java, HTML and CSS
• **Libraries and Frameworks:** React.js, Express.js
• **Runtime and Platforms:** Node.js
• **Databases:** SQL, MongoDB
• **Tools:** Git, Postman

PROJECTS

MERN Stack Food Delivery App | LINK

- Engineered a full-stack web application for a food delivery platform, enabling real-time menu browsing and order tracking for over 1,000 users.
- Developed RESTful APIs with Node.js and Express, implemented JWT-based authentication/authorization, and added OTP-based reset/forgot password functionality.
- Managed user and order data in MongoDB, ensuring scalable performance for thousands of records and boosting data retrieval speed.
- Implemented JWT for secure user authentication, significantly enhancing account protection and transaction security for users.
- Integrated a payment gateway, streamlining online payments and reducing transaction failures by 15% during the checkout process.
- Created a dynamic admin dashboard for real-time management of restaurants and orders, increasing operational efficiency by 25%.
- GITHUB
- Tech Stack**:** React.js, Tailwind CSS, Node.js, Express.js, MongoDB

JS Weather App | LINK

- Built a responsive weather forecast app using HTML, CSS, and JavaScript, increasing user engagement by
- 30%.
- Integrated WeatherAPI.com for real-time temperature, humidity, and wind data to enhance user experience.
- Used dynamic DOM updates for smooth weather display and designed a mobile-optimized UI to reduce
- bounce rate by 40%
- GITHUB
- Tech Stack**:** HTML, CSS, JavaScript, Public Weather API

MovieApp React.js | LINK

- Developed a React-based movie watchlist app allowing users to add, remove, filter, and search movies in a personalized list.
- Integrated TMDB API for trending movie data and used React Hooks for smooth UI updates, boosting responsiveness by 30%.
- Implemented localStorage for persistent user data and added advanced search/filtering to enhance user control and engagement.
- Designed a clean and responsive UI optimized for both desktop and mobile devices
- Tech Stack**:** React.js, CSS, JavaScript, TMDB API, localStorage

EDUCATION

Scaler 2025
Specialized in Software Development & Problem Solving

UKA TARSADIYA UNIVERSITY 2023
BCA in Information Technology

CERTIFICATIONS

JavaScript | CERTIFICATE
Mastered core JavaScript syntax, including variables, control flow, functions, and event-driven logic. Gained expertise in DOM manipulation, asynchronous programming, and object-oriented principles.

RactJs | CERTIFICATE
Acquired proficiency in building interactive UIs using React.js. Mastered component-based architecture, state and props management, hooks, and lifecycle methods to enhance performance and modularity.

MERN Stack | CERTIFICATE
Gained hands-on expertise in full-stack development using MongoDB, Express.js, React.js, and Node.js. Implemented RESTful APIs, performed CRUD operations, and built scalable, end-to-end web applications.

Database & SQL | CERTIFICATE
Built a solid foundation in relational databases and SQL. Proficient in writing queries, joins, subqueries, and data manipulation while ensuring data integrity and performance optimization.
